

Morse Teaching Center

Professor Peter J. Kindlmann Director, Edward Jackson Administrator
Department of Electrical Engineering, Yale University

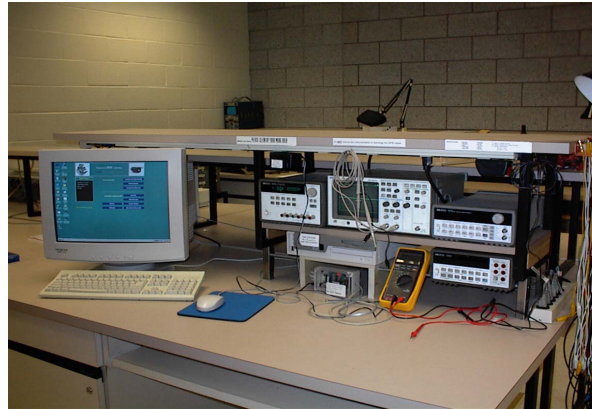

EENG 227La Circuits and Electronics Laboratory

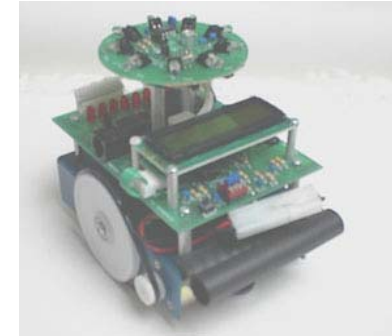

Build circuitry to make a robot follow a line and navigate a maze

Computer controlled workstations for undergraduate student use

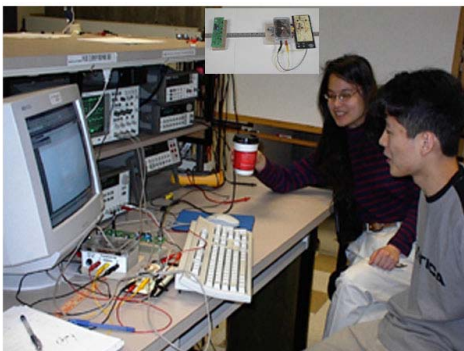

EENG 201 Autonomous Systems Professor Roman Kuc

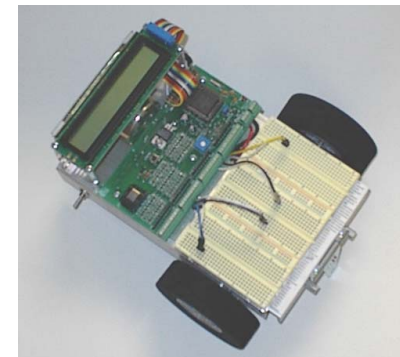

Program Robots to play a game of Cat and Mouse

EENG 229Lb Signal and Systems Laboratory Professor Janet Pan

Build a tracking servomechanism

EENG 350b Embedded Systems Professor Roman Kuc

Exploration of a task involving mobile robot navigation controlled by a microcontroller
